

Contract Number 235542

RACE networkRFID

FP7 Thematic Network
ICT-PSP: a European concerted effort on RFID

D4.3 – Announcement of RACE networkRFID information on European commission RFID portal report

Due date of deliverable: 28-02-2011 (M24)
Actual submission date: 20-04-2011

Start date of project: March 1st, 2009

Duration: 36 months
Version: 1

Organisation name of lead contractor for this deliverable: ETSI
Contact person: Trevor PEIRCE (AVANTA) and Patrick GUILLEMIN (ETSI)

Project co-funded by the European Commission within the Seventh Framework Programme (2007-2013)		
Dissemination Level		
PU	Public	PU
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

TABLE of CONTENTS

<i>Introduction</i>	3
<i>Progress</i>	4
<i>Deliverables</i>	5
<i>Planned Activities to M36 (March 2012)</i>	5
<i>Appendix A) European Commission Web Page</i>	6
<i>Appendix B) RACE networkRFID on EU Portal</i>	8

Introduction

It is important for the credibility of RACE networkRFID that the initiative is recognized by the European Commission. This is particularly important during the early period when RACE networkRFID is growing and many of the deliverables have yet to be completed. While RACE networkRFID has its own Web site it is vital that other RFID or RFID related European projects are aware and take account of RACE networkRFID deliverables in order that steps can be taken to exploit mutual benefits and minimize the risk of duplication of efforts or, conflicting results.

It is equally important that EU Member States recognize the value of RACE networkRFID and provide its local Member State organizations adequate support in contributing to the RACE networkRFID deliverables. Member States can assist RACE networkRFID by providing details of past and present EU Member State sponsored RFID initiatives. The benefit to EU Member States from supporting RACE networkRFID would be to provide greater European publicity to their RFID initiatives.

Deliverable number: D4.3							
Deliverable title: Announcement of RACE networkRFID information on European commission RFID portal							
http://ec.europa.eu/information_society/policy/rfid/index_en.htm announces							
Dissemination level (i): P				Nature of the Deliverable (ii): O			
Month of Delivery: M12, 24, 36							
Participant no. contributing to the deliverable	5	7	9	11	12	14	15
Participant short name	ETSI	IBER LOG	AIDC	ELTRUN-AUEB	RFID SEC	UNIMAN	ADO
Participant no. contributing to the deliverable	20	21	22				
Participant short name	RAND EUROPE	SINTEF	RFID NORDIC				
Deliverable description and objectives to be achieved (iii): WP4 task will result in visible announcements on European commission RFID portal (*) concerning the EU Member States RFID initiatives, RFID Projects inside Europe and international organisations liaising with the Thematic Network. Yearly compilations of copies of these announcements will be kept in the project web site.							
Role of the different participants in the production of the deliverable (iv): ETSI will liaise with the European Commission to propose to advertise successful liaisons established by Thematic Network with the EU Member States RFID initiatives, RFID Projects inside Europe and international organisations.							

Progress

RACE networkRFID has been mentioned on the European Commission's Web Portal for a number of months already and soon after RACE networkRFID was launched. Modifications to Web Portal planned in this reporting period were:

- Replace "Contact Information" reference to Remi Ronchaud with Philippe Rohou
- Replace "Contact Information" reference to phone number with +33497155306
- Replace "Contact Information" reference to E-mail address with philippe.rohou@ercim.eu
- Update the "Project ID card" with information relevant to RACE networkRFID
- Remove duplication within title "RACE networkRFID: RACE networkRFID:"
- Update the presentation of the description of RACE networkRFID and investigate opportunities to simplify parts and add greater information about the Work Package deliverables and EU Member States RFID initiatives
- Add the RACE networkRFID emblem if possible
- Add a Web link to RACE networkRFID's Web site
- Replace "INSTITUT EUROPEEN DES NORMES DE TELECOMMUNICATION" with ETSI

Unfortunately and disappointingly it has been impossible for anyone whether from within RACE networkRFID or the European Commission to organize for the WP4 requested changes to the European Commission's Web Portal. There have been considerable efforts by all parties over an extended period to bring the original Web Portal up to date but stubbornly it remains unchanged. Evidence of the efforts to change the Web Portal are provided below.

The additional planned activities between M12 and M24 included other actions in:

- Establishing an organization within RACE networkRFID to gather and update information on EU Member States RFID initiatives on the EU Web Portal.

With no possibility to get the basic modifications to the Web Portal there was no reasonable justification for establishing an organization within RACE networkRFID to gather such information, beyond the initiatives within WP1 and WP9. The same applied to the following further mid-term planned enhancements:

- Update to align with the new RACE networkRFID Web site
- Investigate adding a section which reports RACE networkRFID progress or upcoming events
- Ensure that provision is made for communicating EU Member States RFID initiatives through the European Commission Web page
- Exploring whether or not European Commission Web page statistics exist and if they do analyze in order to explore:
 - opportunities for improvements
 - effectiveness of changes
- Ensuring that provision is made for communicating EU Member States RFID initiatives through the RACE networkRFID newsletter and Web page.

The proposed WP D9.1 (Ref. Appendix B) overlaps with part of WP4 D4.3 with respect to gathering information on EU Member State RFID initiatives and is perhaps the preferred future vehicle to gather such information. WP9 has highlighted a number of EU Member State activities initiatives and therefore should be in more regular communication with the EU Member States. Aspects within WP4 relating to central European Government authorities should remain within WP4.

Deliverables

The address of the European Commission RACE networkRFID Web page is:

http://ec.europa.eu/information_society/apps/projects/factsheet/index.cfm?project_ref=235542

A copy of the content of this Web page which was originally reported at M12 (on 15/02/2010) as presented in Appendix A is no different at M24..

There have been no deliverables in the reporting period M12 to M24.

Planned Activities to M36 (March 2012)

There are no actions planned between M12 and M36. If there are new opportunities to modify the EC Web Portal then WP4 will make every effort to exploit these to effect the changes planned between M12 and M24.

Appendix A) European Commission Web Page

[Projects](#) :: RACE networkRFID

RACE networkRFID: RACE networkRFID: Raising Awareness and Competitiveness on RFID in Europe

The RACE networkRFID initiative has been developed to raise awareness of Radio Frequency Identification across Europe through the establishment of a federating platform for all key European stakeholders in the development and use of RFID technology and applications. The European Union (EU), through the Commission, has made a substantial investment in research, standards and regulatory developments and public consultation concerning radio frequency identification (RFID) and the emergent concept of the 'Internet of Things. While research and development initiatives will continue a pressing need can now be seen for generating greater awareness and take-up of RFID technology and the exploitation of user-facing opportunities for innovation and enterprise. The Information and Communication Technologies Policy Support Programme (ICT PSP) has in part identified a platform for accommodating such a need through the formation of a thematic network. RACE (Raising Awareness and Competitiveness on RFID in Europe) proposes a thematic network that aligns with, and accommodates, the needs identified in the ICT PSP call for network proposals. The objectives for RACE networkRFID have been developed from the needs identified by the ICT PSP for a thematic network for RFID, namely: 1. Creating a federating platform for all European Stakeholders in the development and usage of RFID 2. Positioning the European Union as a world leader in RFID excellence 3. Addressing the barriers to adoption and deployment as well as fragmentation in the market 4. Providing a driving force for coordination, support and strengthening of the national bodies 5. Involving a large number of Member States' authorities dealing with public RF

Project ID card

- Funded under: [ICT Policy Support Programme](#)
- Area: Objective 3.1 - EU wide implementation of eHealth services to support continuity of care: patient's summary and ePrescription
- Total cost: €0.00m
- EU contribution: €0.00m
- Project reference: 235542
- Execution: From 01/03/2009 to 29/02/2012
- Project status: Running
- Contract type: ICT Policy Support Programme TN

Dear Peter,

Many thanks for the feedback.

I will contact Ovidiu and keep you posted on my progress.

Kind regards,

Trevor

Dear Trevor,

I have now reminded for the third time our internal service and hop that they will execute now this request.

Ovidiu should now be back from holidays.

Best regards – Peter

Dear Peter,

Regrettably the EU Portal Web page for RACE has not been changed yet. I checked this morning and used a Google search to retrieve the EU Portal Web page for RACE, which is one of the most likely paths for newcomers searching for RACE contacts to find first. I know little about the FInES Web page organization. The reference and suggestion came from Patrick.

Yes I did see and review the IERC Web pages. That is what prompted me to email Ovidiu a week or more ago to ask whether it would be possible to add information on the IERC organization in terms of core IoT themes, related IERC leadership and associated contact details. The reason I am requesting this is to have a place holder to add information to the IERC Web pages related to the topics of IoT privacy, security and health. Perhaps Ovidiu is on holiday as I have not yet received a reply.

Kind regards,

Trevor

To: trevor.j.peirce@hotmail.com

Dear Trevor,

Good to hear from you again. Just to understand you correctly – the colleagues have still not updated the RACE entry? As it concerns the FInES cluster I think they are on a different server, no. Anyhow the best is, to have a short entry on our pages and then to link directly to the IERC and RACE pages. By the way did you see the IERC's new site: <http://www.internet-of-things-research.eu>? We will also have soon – driven by IOT-I - a new IOT website for Europe which will link to the Cluster, the project and the initiatives.

Best regards,

Peter

To: peter.friess@ec.europa.eu

Dear Peter,

Hope you are keeping well.

I appreciate that you had asked me to refrain from pursuing the update of the RACE project description on the EU Portal however yesterday during a review of the status of my project activities with Patrick we jointly concluded that the suggested Web update is an important contributor to RACE's success. Patrick suggested to me that the FInES Cluster pages are regularly updated and perhaps there could be some way in which your colleague Cristina Martinez may be able to assist us. I hope this suggestion or any other you may have can provide an opportunity to advance this topic.

Kind regards,

Trevor

RE: RACE networkRFID EC Web site

To emmanuelle.porta@ec.europa.eu, peter.friess@ec.europa.eu, patrick.guillemine@etsi.org

From: Trevor Peirce (trevor.j.peirce@hotmail.com)

Bcc: patrick.guillemine@etsi.org

Dear Emmanuelle,

Please could you arrange the following changes to the RACE networkRFID Web pages on the DG InfoSoc Web site. I believe that the Management Board of RACE networkRFID believe that these changes have been already been implemented so there is some urgency to my request.

The location of the page is:

http://ec.europa.eu/information_society/apps/projects/factsheet/index.cfm?project_ref=235542

The changes necessary are the following:

- Replace “Contact Information” reference to Remi Ronchaud with Philippe Rohou
- Replace “Contact Information” reference to phone number with +33497155306
- Replace “Contact Information” reference to E-mail address with philippe.rohou@ercim.eu
- Update the “Project ID card” with information relevant to RACE networkRFID
- Remove duplication within title “RACE networkRFID: RACE networkRFID:”
- Update the presentation of the description of RACE networkRFID and investigate opportunities to simplify parts and add greater information about the Work Package deliverables and EU Member States RFID initiatives
- Add the RACE networkRFID emblem if possible
- Add a Web link to RACE networkRFID's Web site

• Replace “INSTITUT EUROPEEN DES NORMES DE TELECOMMUNICATION” with ETSI

Many thanks. Please do not hesitate to contact me if you have any questions.

Kind regards,

Trevor Peirce

Subject:

Dear Peter,

I did a quick check tonight on the DG InfoSoc pages for RACE networkRFID and found that the changes we agreed have yet to be published:

http://ec.europa.eu/information_society/apps/projects/factsheet/index.cfm?project_ref=235542

I regret to have to bring this to your attention but the MB wishes to see the pages aligned with the changes implemented at the last GA and updated to align with the "new" look RACE

networkRFID Web pages. Therefore the MB members are more than likely to be visiting the DG InfoSoc pages to check-up upon progress during the coming weeks.

Will you be attending this week's RFID Rec Informal Work Group meeting?

Kind regards,

Trevor

Dear Peter,

I have been advised that I should contact you with respect to the RACE networkRFID European Commission Web page

http://ec.europa.eu/information_society/apps/projects/factsheet/index.cfm?project_ref=23554

2 . If you are not the correct contact person please would you let me know who is please.

As part of WP4 activities I have noted the following urgently required changes:

- Replace “Contact Information” reference to Remi Ronchaud with Philippe Rohou
- Replace “Contact Information” reference to phone number with +33497155306

- Replace “Contact Information” reference to E-mail address with philippe.rohou@ercim.eu
- Update the “Project ID card” with information relevant to RACE networkRFID
- Remove duplication within title “RACE networkRFID: RACE networkRFID:”
- Update the presentation of the description of RACE networkRFID and investigate opportunities to simplify parts and add greater information about the Work Package deliverables and EU Member States RFID initiatives
- Add the RACE networkRFID emblem if possible
- Add a Web link to RACE networkRFID’s Web site
- Replace “INSTITUT EUROPEEN DES NORMES DE TELECOMMUNICATION” with ETSI

Many thanks.

Kind regards,

Trevor
