

Contract Number 235542

RACE networkRFID

FP7 Thematic Network
ICT-PSP: a European concerted effort on RFID

D6.1 – Report on relevant SME Organisations by State and Sector

Due date of deliverable: 31-08-2009 (M6)
Actual submission date: 25-03-2010

Start date of project: March 1st, 2009

Duration: 36 months
Version: 1

Organisation name of lead contractor for this deliverable: RFID Nordic
Contact person: Ove Canemyr

Project co-funded by the European Commission within the Seventh Framework Programme (2007-2013)		
Dissemination Level		
PU	Public	PU
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

TABLE of CONTENTS

<i>Introduction</i>	3

<i>Sectorial SMES's Organisations by State</i>	11
<i>Chambers of Commerce and Chambers of Craft</i>	15
<i>Guilds</i>	16
<i>Research Centres</i>	17
<i>European Associations</i>	18
<i>Education. Individual/SME/Boards</i>	20
<i>Conclusions</i>	20

Introduction

The SME community represents more than 95% of businesses in Europe. The revolutionary and radical nature of RFID is as relevant to the SME community as it is to the large companies. The extensive interest and consultation process within Europe, concerning RFID, now demands that there is a significant drive on awareness of RFID. More importantly, it is necessary to provide tools and services to allow the SME community to fully understand and exploit this important area of technology, particularly in areas of process development, new products, enterprise and innovation. It has to be recognised that different Member States are at different levels of adoption and the RACE Thematic Network will particularly address this issue.

The primary objective of the "SME Awareness" work package is to first of all establish the SME End User needs; to introduce appropriate business assist and development initiatives, which will be supported by accredited advisors.

It is critical to address the barriers to adoption. We are fortunate that one of the partners in the RACE project is UEAPME, the European Federation for SME and we will seek to work directly with them and their 78 national associations, along with other interested European organisations to establish the answers.

Our target is to promote product, process and service innovation opportunities to the entire SME community.

Work Package 6 will:

- Identify the most relevant SME organisations by state and by activity sector (industry associations, guilds and institutes, etc)
- Establish SME End User needs
- Examine existing business assist and development initiatives
- Address the SME barriers to adoption
- Educate Individuals/SMEs/Boards and present Seminars for SMEs.

Work Package 6 will work closely with WP5 and WP7 to establish the existing platform of service support, which is available from the contracted and associate members of RACE RFID Forum and recommend appropriate adoption by Member States. This should establish early momentum across the 27 Member States and enable dialogue country by

The WP6 Core Team had mainly involved the following members:

- AUEB, Katerina Pramadari, Greece
- IBERLog, Octávio Lopes, Portugal
- ISMB, Fabio Forno, Italy
- ITT TRALEE, Pat Doody, Ireland
- RFID NORDIC, Ove Canemyr (WP 6 Leader)
- TECNALIA, Ana Ayerbe, Spain
- TEXI, Vidar Kvalheim, Norway
- TREVI, Christian Mazzocco, Italy
- UEAPME, Ludger Fischer, Europe

This deliverable D6.1 shows the most relevant SMEs Organisations. It is organised in the following way:

- SMEs organisations listed by State.
- Sectorial SMEs organisations by State.
- Chambers of Commerce and Chamber of Crafts.
- Guilds.
- Research Centres.
- European Associations.
- Education. Individual/SME/Board.

* A major UK membership organisation, representing 215,000 SMEs, has expressed an interest in the RACE networkRFID project. Although the organisation is unable to join the project due to its own internal policy restrictions, it has requested that it receive communications from the project in order to keep its membership informed of progress in relevant RFID issues. It is represented by AIDC.

Education. Individual/SME/Boards

Conclusions

RACE networkRFID – raising awareness and competitiveness in Europe for RFID.

WP 6 is a important part to reach this target. In close cooperation with WP 5, WP 7 and WP 9, we will during 2010 finish the job to “Identify the most relevant SME organisations by state and by activity sector (industry associations, guilds and institutes, etc)” and put the .doc on our new designed website for the project and thereby give our first delivery to the new European RACE networkRFID server.

WP 6 will also put the new, open webased “5 minutes diagnostics” for every SME to fetch and fill in at our new website on the net during 2010. This is to fulfil our task to “Establish SME End User needs, examine existing business assist and development initiatives and address the SME barriers to adoption.”

WP 6 will send out an invitation to all SMEs in Europe to participate in the seminars in Brussels by the end of November. The seminars will be open and focusing on Good exaples and fast ROI. The Seminars will be arranged by UEAPME.

In Q4 2010 WP 6 will have developed a program for Education of RFID in different areas and fields as well as Management Board level. This to fulfill our task “ to examine existing business assist and development initiatives”.

WP6 will further on release 4 Quaterly pdf magazines to all SMEs in Europe with the help of our new tools. The content will be based on good cases with fast ROI from all member countries in the EU. WP 6 will ask for 5 000 € fromthe funded 50 000 € in the RACE networkRFID. In these Quaterlys we will also present the new sign for RFID.

WP 6 will then have fulfilled our tasks by 1 march 2012.

The project leader of WP 6, Ove Canemyr, has also participated in the work of producing the new PIA (Privacy Impact assessment) tool for everyone working with RFID in Europe.
